Further diagnostic tests – Yes*/No/NR *brief description				
Treatment				
Treatment – none / conservative / medical / surgical				
Details of the treatment				
Response to treatment – normal/intermittent lameness/constant lameness/other* *brief description				
Any further comments:				

THANK YOU VERY MUCH FOR TAKING TIME AND EFFORT
TO FILL IN THIS FORM AND RETURN IT!!!

Radiographs will be copied/photographed and returned asap!

We are also very keen to see clinically affected cats as referrals in order to perform ultrasound and surgery, if indicated.

Please don't hesitate to contact me with any queries regarding affected cats or this study!

Please post the completed form with the radiographs to
